ACTIONS SPEAK Louder
for the 4th ANNUAL
FEAT WALK

Dear Friends:

During National Autism Awareness Month, **actions speak louder** when families and friends walk together at the fourth annual FEAT WALK on Saturday, APRIL 29, 2017 at Maidu Community Park in Roseville CA.

Autism affects **one in 50 children** and continues to be the fastest growing developmental disorder in the world. FAMILIES FOR EARLY AUTISM TREATMENT (FEAT) needs your help to give individuals with autism the opportunity to reach their fullest potential and to remain safely in their homes with their families.

For over two decades, FEAT's volunteer-driven nonprofit organization has been working in the trenches with thousands of local families to provide education, advocacy and support for best-outcome treatment. The vital connections parents make through FEAT help them to become their child's best advocate and to move forward as they navigate the challenges presented by autism.

"FEAT helps our family remain persistent in our goal to pursue services and treatments that will help our son live as independently and safely as possible in our home." Robin V.

"Our son is 24, and he works hard to communicate and navigate life in ways most of us take for granted. FEAT helped us prepare him for a successful transition from high school to college classes." Nannette H.

"With FEAT's encouragement to embrace the sacrifices and commit to utilizing best-outcome Applied Behavior Analysis ABA therapy, our family has reclaimed joy as we watch our seven year old daughter build skills and be empowered by engaging with others in meaningful ways." Kirsty Y.

"FEAT connects our families through fun, annual events such as the Pool Party, Bishop's Pumpkin Farm and FEAT WALK, giving individuals with autism and their friends a chance to smile and enjoy activities in a safe environment." Natalie C.

Enclosed is information about **FEAT WALK SPONSOR** opportunities. May we count on you to partner with FEAT families as a Sponsor?

Sincerely,

The Families and Board of Directors
FAMILIES FOR EARLY AUTISM TREATMENT
